P&L FEASIBILITY · PROGRAM COMPANY · FIVE YEARS

# A client pays $20.2k and costs $10.3k to serve. EBITDA turns positive in year four.

A year of measured, physician-signed care with one to three stays in Türkiye. Partners are paid per client, so the cost of each client is known.

| FUNDING TO RAISE | EBITDA POSITIVE | YEAR-5 REVENUE |
|---|---|---|
| **$1.0–1.1M** | **Year 4** | **$21.3M** |
| Base case, incl. 25% buffer | Cash flow positive in year 2 | 17% EBITDA margin |

## Where one client's money goes

weighted client, first year

### Client pays $20,215 in year one

**Contribution** = price − partners − fees. **Profit after acquisition** = contribution − acquisition. P&L gross profit also deducts the care team.

| CLIENT CONTRIBUTION | PROFIT AFTER ACQUISITION | PAYBACK | RENEWING CLIENT |
|---|---|---|---|
| **$8.5k** | **$5.1k** | **4.8 months** | **$7.4k** |
| 42% of price, after partners and fees | per client, before team and overheads | to repay acquisition | contribution; no acquisition, no referral |

## What the client buys

one program year

**STAYS**
**1–3 visits to Türkiye**
Istanbul first, then Cappadocia or the Aegean. Three nights each.

**CARE**
**A named team for 12 months**
Coordinator, dietitian, coach; about seven physician hours.

**MEASUREMENT**
**Four blood panels a year**
At the hospital on visits, at home in between. Year-end report.

**AT HOME**
**A monthly box**
Supplements and pantry foods, plus an app and devices.

## Pricing rules in the model

SERVICE LEVEL
**30% choose Premium**
Luxury hotels, private experiences and longer physician sessions, at a higher price.

FOUNDING COHORT
**−15% in year one**
Pilot clients pay less in return for feedback and anonymised case data.

RENEWAL
**90% of list price**
Clients who stay a second year pay less; year two starts with a full re-measurement.

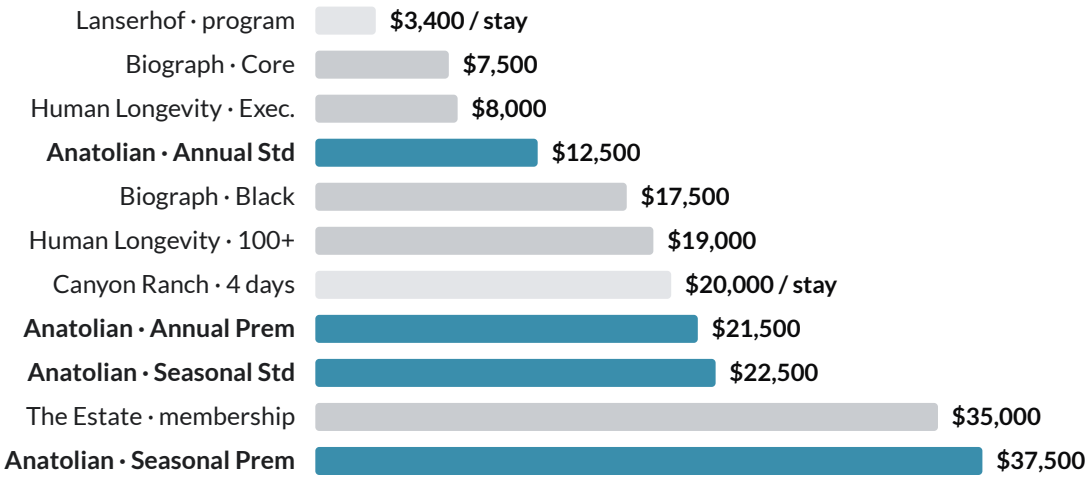

COMPANIONS
**15% of clients, −20%**
Partners who join with their own protocol pay 80% of list and cost nothing to acquire.

CLINICAL ADD-ONS
**30% buy, $1,800 each**
Sleep program, glucose sensor, mole mapping, therapy; delivered by partners.

PRICE INCREASES
**+5% a year**
List prices rise from year two; Türkiye costs in dollars rise 8% easing to 2% a year.

02 / UNIT ECONOMICS

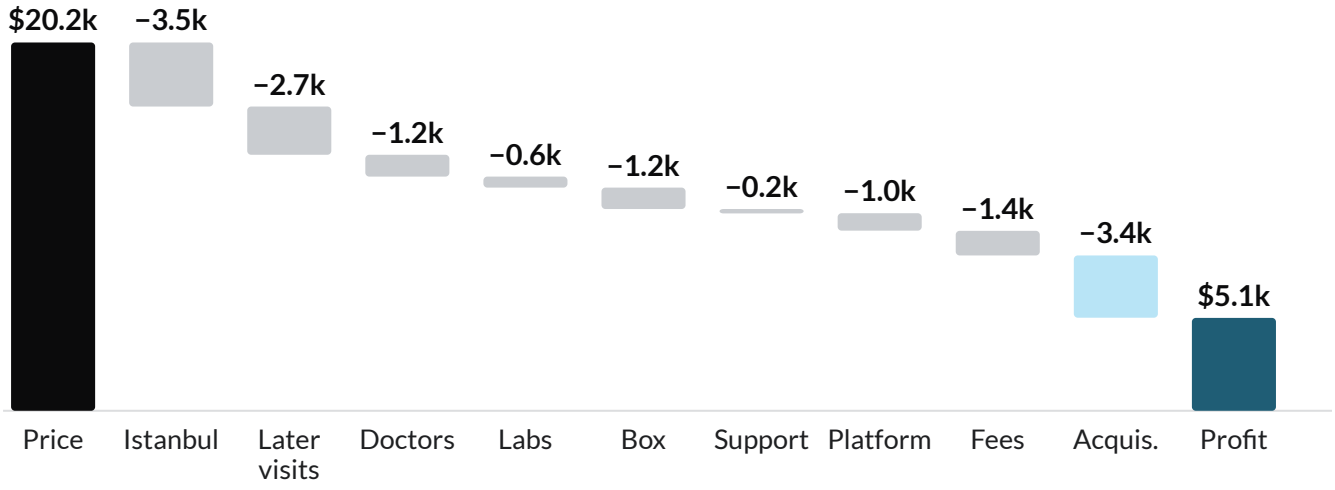

# Every package pays back its acquisition cost

What each package leaves after partners, fees and acquisition.

## The weighted client, step by step

first year, USD

- **Annual Standard is the weakest:** $1.7k profit after acquisition, 8.1 months to repay. An entry product.
- **Extra visits pay:** a second visit adds $5,000 of price for $2,100 of cost.
- **The monthly box** is the biggest cost outside visits. $20 less a month adds $240 per client.
- **Renewals drive profit:** $7,402 per renewing client.

03 / GROWTH AND PROFIT

## Risks to the numbers

DEMAND
### Clients come slower
At 60% of planned volume, EBITDA still turns positive in year 5; the pilot measures real conversion first.

PARTNER COSTS
### Hotel and hospital prices in dollars
Türkiye costs rise faster than the lira weakens. Fix partner rates in dollars per program year.

PRODUCT MIX
### Too many Annual Standard clients
The lowest-value product. Upgrades at the year-end review are the fix.

REGULATION
### Claims, supplements, telehealth
Rules differ by market; the core protocol depends on neither the box nor one channel.

**Not in the numbers (upside):** Türkiye health-tourism support (50% of agency commissions, 50–60% grants for fairs), more add-ons, corporate and family-office contracts.

APPENDIX B / ASSUMPTIONS AND METHOD

# How the model is built

## Key assumptions

| ASSUMPTION | VALUE · USD | BASIS |
|---|---|---|
| Istanbul measurement day | 1,000 | Executive check-ups list at $400–2,500 |
| Hotels, Istanbul · regions (Std / Prem) | 220 / 600 · 200 / 500 list, −10% | Five-star alternatives to Four Seasons (~$950–1,100); Argos ~$330–590 |
| Physician time | 7–10 h at 120 | Blueprint: ~7 hours per client |
| Home blood draw | 280 | Labcorp-based panel $357 retail |
| Monthly box | 80 / 125 | Supplements, pantry, fulfilment |
| Technology platform | 600/client + 3,000/month | Placeholder until terms are agreed |
| Qualified leads and conversion | 133 → 4,420 a year; 10% | Calibrated to the plan; to be measured in the pilot |
| Cost per qualified lead | 500 → 500 | Events, dinners, content, paid media |
| Cancellations · withdrawals | 5% before visit 1 · 3% mid-program | Full refund · 50% refunded on average |
| Referral partners | 35% of clients at 12% | First-year price only |
| Renewal by program year | 45% · 40% · 35% | Into years 2, 3 and 4+; later rates are placeholders |
| One-off set-up, year one | 197,000 | Legal, brand, platform, method, hiring |
| Markets | 4 by year four; 75,000 to open each after the first | Plus $20,000 a year per extra market. Placeholder |
| Exchange rate · cost inflation | USD/TRY 49.5 | TL costs in USD +8%, +5%, +2%, +2% in years 2–5 |

## Method

- **Scope:** the program company only. It sells the program, employs the care team and pays partners; it owns no clinic.
- **Timing:** each program runs 12 months, half recognised in the enrolment year, half in the next.
- **Demand:** qualified leads × 10% conversion, plus referral clients and companions. 5% of sign-ups cancel before the first visit; 3% withdraw mid-program with a pro-rata refund.
- **Markets and months:** 4 markets by year four, each with entry and running costs; the first 36 months are also modelled monthly.
- **Cash:** 70% paid at enrolment, the rest at month six; 65% of partner costs paid in the enrolment year.
- **Currency and tax:** USD excl. VAT and flights; USD/TRY 49.5; 25% tax after loss carry-forward; no grants.
